Contents

What's New in the 11.1.3 Release

See the *Oracle Enterprise Performance Management System Documentation* to access all available Crystal Ball documentation. These documents are the most up-to-date versions for Crystal Ball, with the exception of updates and corrections noted in this *What's New* document.

Updated Optimization Algorithm

Due to updates to the optimization algorithm, the following content in the *Crystal Ball Reference and Examples Guide* changes as follows:

Product Mix OptQuest Solution Topic (OptQuest Examples and Reference/OptQuest Examples/Product Mix/Product Mix OptQuest Solution)

The optimal value of \$16,759.81 is changed to \$26,296.14.

Existing text:

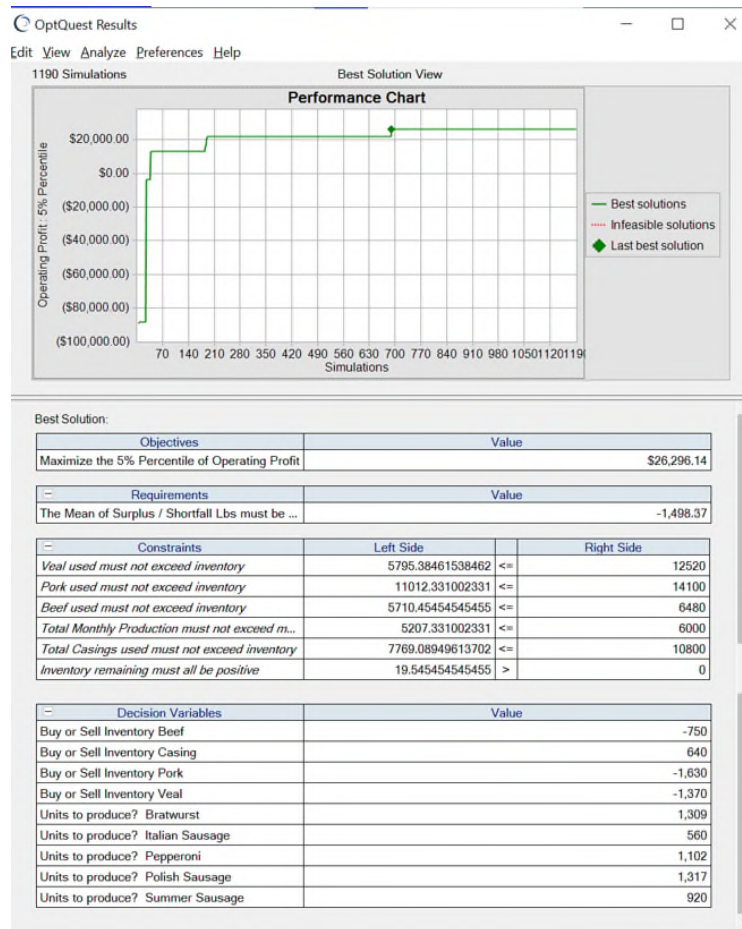

Figure 79 shows the OptQuest solution. The optimal 5th percentile of operating profit is **\$16,759.81**, obtained by producing 1,039 pounds of bratwurst, 715 pounds of Italian sausage, 877 pounds of pepperoni, 1,377 pounds of Polish sausage, and 985 pounds of summer sausage.

Updated text:

Figure 79 shows the OptQuest solution. The optimal 5th percentile of operating profit is **\$26,296.14**, obtained by producing 1,039 pounds of bratwurst, 715 pounds of Italian sausage, 877 pounds of pepperoni, 1,377 pounds of Polish sausage, and 985 pounds of summer sausage.

Updated Figure 79:

Figure 1: Product Mix Model Optimization Results

Multiobjective Optimization OptQuest Solution Topic (OptQuest Examples and Reference/Portfolio Revisited/Portfolio Revisited Method 2: Multiobjective Optimization/Multiobjective Optimization OptQuest Solution)

The value \$31,100.44 is changed to \$3,077.21.

Existing text:

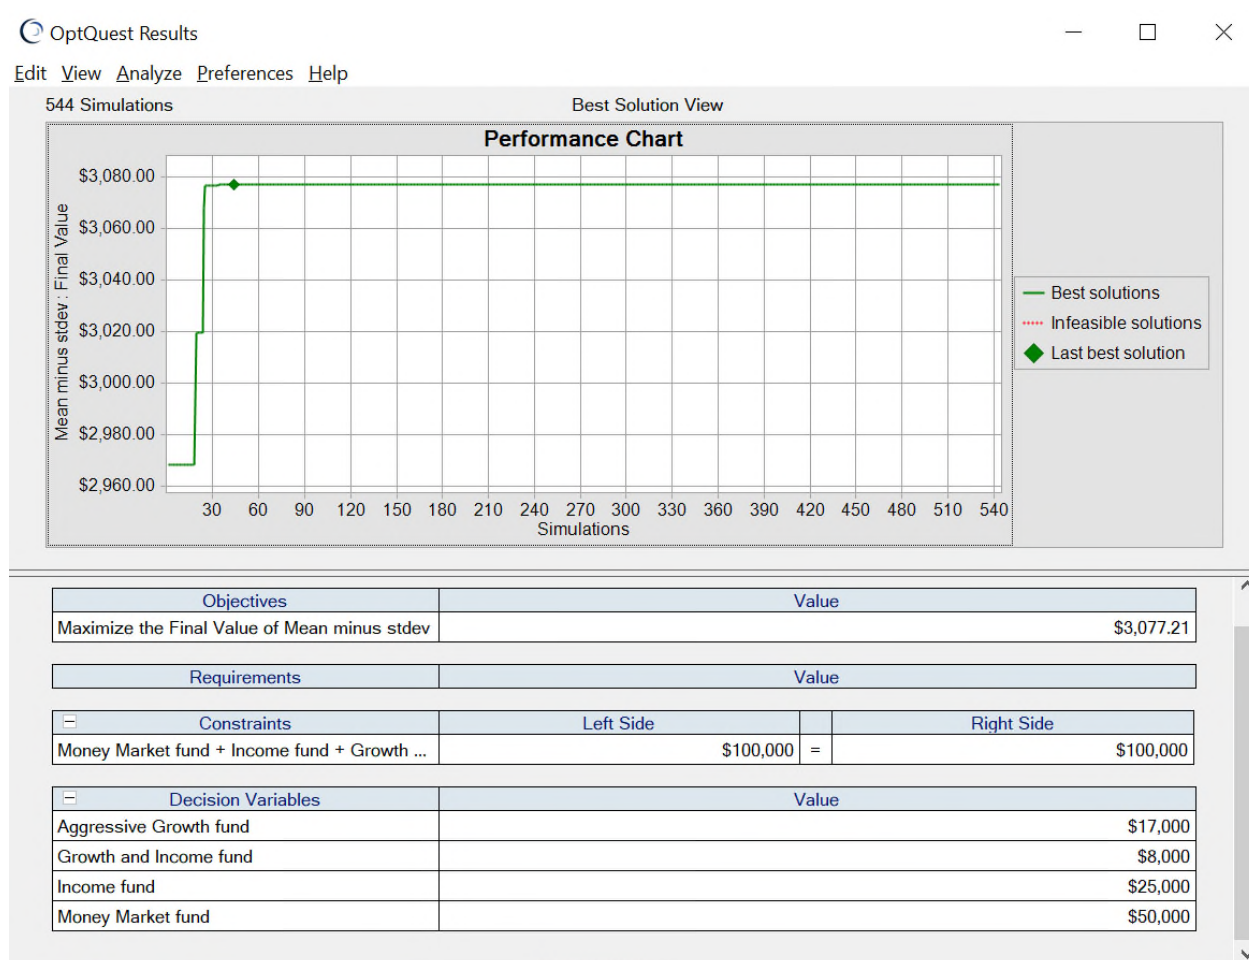

The results are displayed in Figure 96. Mean minus std dev is maximized at **\$3,100.44** and fund values are as follows:

Updated text:

The results are displayed in Figure 96. Mean minus std dev is maximized at **\$3,077.21** and fund values are as follows:

Updated Figure 96:

Support for Microsoft Office 2021

Crystal Ball has been tested and is verified to be compatible with the latest release of Microsoft Office 2021.

Use the *Compatibility Matrix* to get details on the configurations that we've tested and verified to work.

Documentation Corrections

The following corrections to the *Crystal Ball Reference and Examples Guide* are as follows:

Project Selection OptQuest Solution Topic (OptQuest Examples and Reference/OptQuest Examples/Budget-constrained Project Selection/Project Selection OptQuest Solution)

Change the text as follows to reflect the objective:

Existing text:

On the Objectives panel, set the objective to Maximize the **Final Value** of Total profit. Notice that there are no requirements.

Updated text:

On the Objectives panel, set the objective to Maximize the **Mean** of Total profit. Notice that there are no requirements.

Existing text:

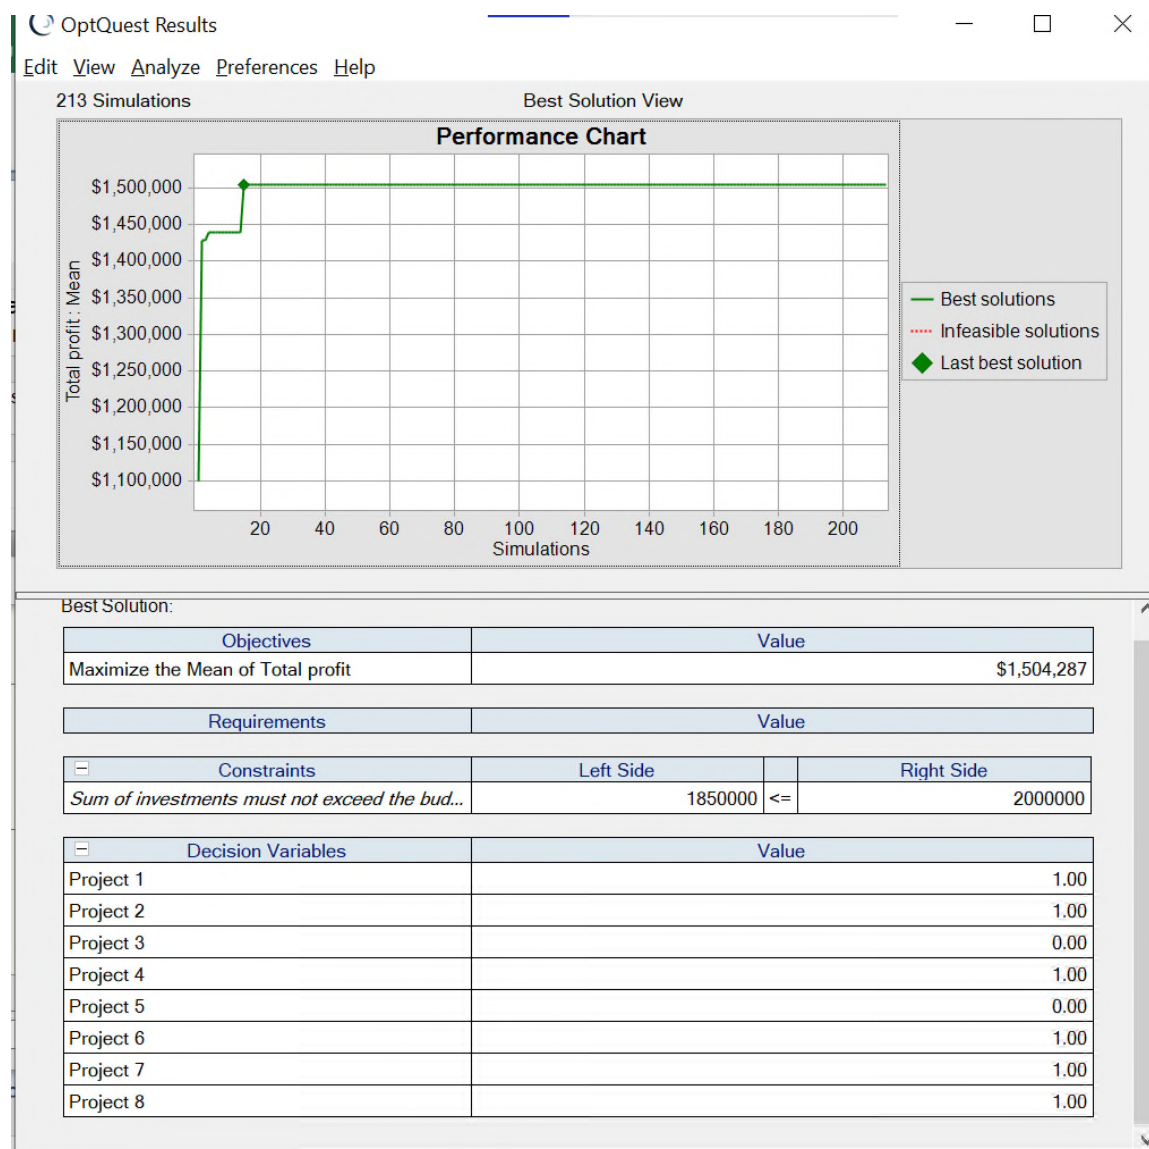

Figure 84 shows the results of an OptQuest optimization. The best solution selects projects **2, 4, and 5**.

Updated text:

Figure 84 shows the results of an OptQuest optimization. The best solution selects projects **1, 2, 4, 6, 7 and 8**.
